CLASS LEADING IN PERFORMANCE & SAFETY

PRO SERIES

SAFETY

- Conforms to **AS/NZS 1926.3.2010** industry standard

PERFORMANCE

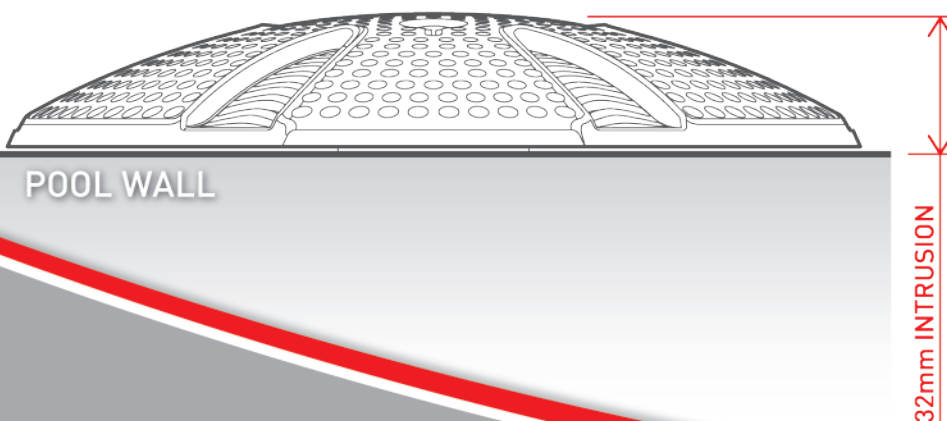

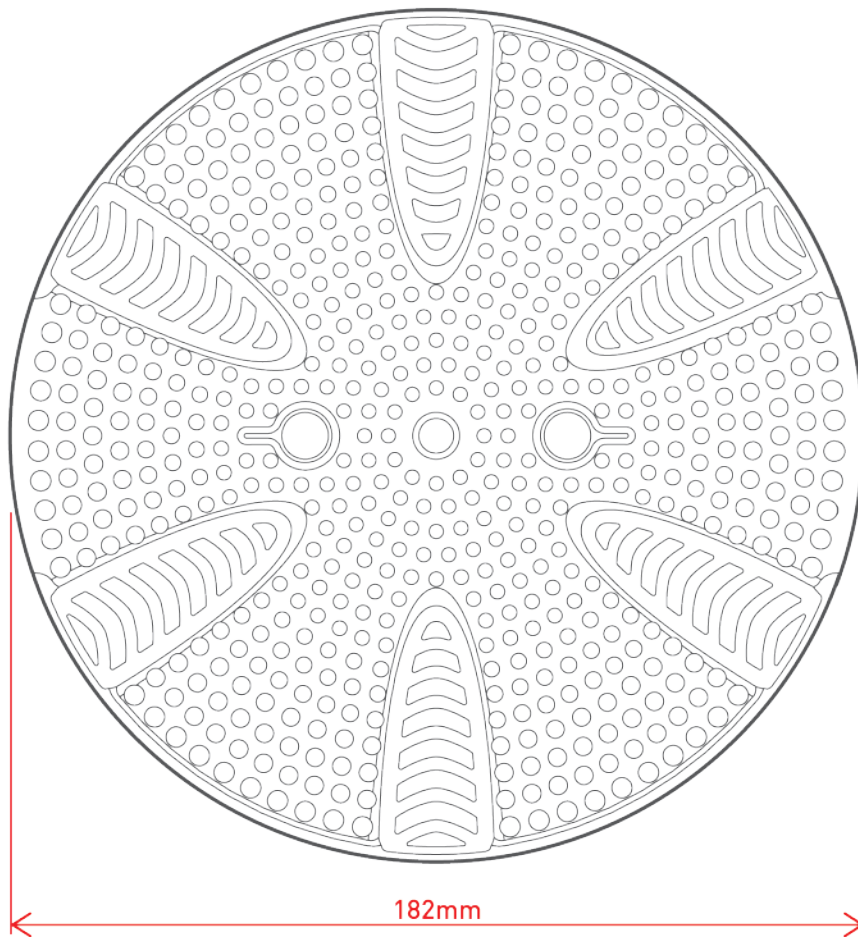

- The PRO SERIES Suction range is rated to an impressive **420lpm**.
- This high flow rate can (in most cases) alleviate the need for more than the minimum suction requirement.*

QUALITY

- Designed and built under certified quality management system.
- Constructed from the highest grade UV & chemical stable materials.

FLEXIBILITY

- 40mm & 50mm push-in fitting for concrete installation
- 40mm & 50mm threaded fitting for fibreglass or vinyl installation
